Welcome

A Letter from the Editor

It's not a mystery, we grow older, get more mature and make decisions that begin to effect more than just the course of our days. The evolution of the question is subtle, but exact. Where we used to ask "what should I wear?" or "what should I eat today" we must now begin to ask how we will buy the clothes and the food we need to answer those daily questions. We are slowly becoming the teachers, the lawyers, the doctors, the fibers of our society. What a remarkable time upon which to embark. What a remarkable time in which to make these decisions. We have the power now to, not only shape our lives, but to shape the world in which we live.

As we move forward, leaving footprints on the path it is important to know that those imprints you left will always be there to look back upon. They will always be there to reflect upon and to examine the turns you made in the road. This present will soon be the past--those footprints--those engravings in the road to our final destinations. Our feet will never fit in them exactly the same way, but they may provide the path for those that follow.

From this day forward make solid decisions, make slow decisions, make the best decisions for your road. You have the power to change the future if you take advantage of the present. Classmates of the University of Massachusetts at Amherst, take with you the skills and knowledge you have acquired during your time, go forward, and always step firmly along the way. Leave a footprint--make a mark on this world.

The Distinguished Teaching and Academic Advising Awards

For over thirty years the University of Massachusetts Amherst has conferred a teaching award that recognizes and honors individual excellence -- the campus-wide Distinguished Teaching Award (DTA). Student input is key; nominations for the awards are made by current and former students to an awards committee, which is comprised of faculty, undergraduate students, and graduate students who were former winners. The award is highly competitive as each year, faculty, graduate, and undergraduate student committees review well over 100 nominations in a two-step process of data collection and analysis prior to selecting three faculty and two teaching assistant awardees.

The Distinguished Teaching Award is the most prestigious prize awarded by the University for excellence in classroom teaching. Each recipient is given a plaque and a monetary award; faculty members receive \$3,000, teaching assistants \$2,000.

Each year, the University of Massachusetts Amherst also recognizes individuals who guide students through their academic experience, advise them on career options and arrange referrals to other campus services, where appropriate. Since 1999, one faculty member and one staff member have been recognized for their contributions to our students. Winners receive a \$3,000 monetary award and a plaque.

STUDENT ALUMNI RELATIONS SOCIETY

The STudent Alumni Relations Society (STARS) has been a registered student organization on campus since 1991. Our mission is to enhance the students' experience and facilitate interaction with alumni while at UMass Amherst. We achieve our purpose through organizing a variety of campus-wide events, such as a semi-formal dance, a mud volleyball tournament and the Commencement Ball. STARS is closely affiliated with the UMass Amherst Alumni Association, and through this relationship we are involved with many Association sponsored events such as New Students Convocation, Homecoming, Family Day, and Commencement.

*Commencement Ball '02:
Katrina Latka, Michael Stacy*

STARS members also serve as representatives of the student body to distinguished alumni, through our connection with the Alumni Association.

Continuing with the alumni interaction goal of the group, STARS was asked this year to perform the role of student hosts for Chancellor Lombardi.

Within STARS, the Chancellor's Personal Hosts have emerged to engage guests, including alumni, dignitaries, and special University friends at the Chancellor's home for various functions.

Chancellor's Personal hosts: Andrea Vigeant '04, Meagan McMullen '04, Beth Mrazik '04

STARS after Oozefest 2002!

STARS promotes teamwork in everything we do. Members have the opportunity to improve their leadership, communication, and organizational skills. STARS is a member of an international organization, which enables STARS members to attend district and international conferences where we exchange ideas and learn from other schools on how to better serve our student body through leadership and teamwork.

The STudent Alumni Relations Society is a pivotal organization on campus. Not only do members strive to improve the experiences of students and alumni, but we also gain a sense of pride and appreciation for this university that will last a lifetime.

ΣΤΓ

Sigma Tau Gamma is a national fraternity founded in 1920 in Central Missouri State. It started at Amherst because Brother Chris White transferred from UMass Lowell to UMass Amherst. Realizing in his junior year what a wonderful time he had in Lowell with it, he began to discuss it with his friends. After recruiting other people, a group of ten was colonized on May 4, 2002. The final seven founders were Chris M. White, Ted Markowsky, Victor Yoon, Chris Johnson, Marcos Parreto, Gustavo Nascimento, and Saulo Vionna.

Now with a group of twelve in the second semester, the fraternity has helped out at Shelter Sunday and raised money working Patriot Games. The brothers of Sigma Tau Gamma love to have fun, party, and play sports, but most of all to leave with what they began with as friends. Sigma Tau Gamma is based on friendships: True friendships.

*When twilight shadows deepen and the study hour draws nigh,

 But now we're all together it's just one glad sweet song.
 But college days are passing, and the time is beck'ning on.

A letter from Chancellor Lombardi

Dear Class of 2003,

Each graduating class carries with it memories of its activities and accomplishments, its difficulties and disappointments. The members of this class will recall the changes that took place in their lives and the lives of their many communities during their undergraduate years. These memories reflect not only the personal experiences of every student, but the achievements that marked their exploration of life and learning throughout the years.

Every university like ours is composed of micro communities, and each student belongs to many of these throughout their time in the university. Some form around students' academic lives in departments, schools, and colleges; others appear through their housing groups in residence halls. Students join clubs and sports teams, they become part of sororities and fraternities, they engage in on and off campus organizations, they contribute to projects and activities. Each of these micro communities represents both an opportunity for social and academic growth but also a place where students change the university, where they engage its structure to improve and update it to meet the needs of the current generation.

This yearbook captures some of that activity; it serves to remind the members of this class of what their college years meant to them and what their contributions mean to their university.

We are proud of this class, its accomplishments, its impact on this institution, and its remarkable promise. We will turn to this yearbook to remind ourselves of its time here and as a token of this class' permanent engagement with the University of Massachusetts Amherst.

Ms. Lovasco

You've come a long way, Sweetie! You were my first child, and I thank God that you turned out so well in spite of my mistakes. I am proud of the fact that you are brilliant, poised, confident, ambitious, and funny because these qualities will serve you well in your quest for success. But most of all, I am proud of the fact that you possess a sincere, loving heart -- because this will serve you well in life.

I'll love you always,
Mom

Congratulations, Dan.
We are so proud of you!

Love,
Mom, Dad,
Jake and Mike

CONGRATULATIONS STEPH (PUP)...
WE ARE VERY PROUD OF YOU

Stacey, we are so proud!
Congratulations! We have enjoyed watching you become a compassionate, independent, and accomplished member of the UMASS community. Being your parents is one of our greatest joys.

You will always be our little girl.

Thank You.

We love you 1,000's. Mom and Dad

Brian,

Congratulations!

We are so proud of you.
Always follow your dreams
& keep blowing your horn.

Love

MICHELE

Yesterday we held you close
in our arms.

Today you begin
a whole new life.

That's how quickly
you seem to have grown.

So live life to its fullest
and cherish each moment.

Work hard, laugh often
and love deeply.

You have made us very proud
in so many ways;
however, this newest accomplishment puts you in
the "NUGENT HALL OF FAME"
as the first Nugent college graduate!

Good luck in finding your way
and realizing your dreams.

We love you,

Mom, Dad,
Laura Et Katie

FRIENDS FOREVER

Helen and Lindsay, friends for
such a long time
We really wanted to make
up this rhyme.

Even before Foxhill Elementary School
You met in the summer at the swimming pool.
We remember how cute you were
The time went by so fast it's just a blur.
You went off to college and worked hard to excel
But you also had fun and made new friends as well.
From little girls to nearly age twenty-two
Pretty and smart the two of you grew.
Now you've finished your college years
You're about to embark on your careers.
One is about to audit the books
The other is trying to act on her looks.
As you receive your diploma and everyone cheers
We know you'll be friends
through all the
years.
Classmates, roommates,
always friends true
Your families are all so
proud of you two.

For a Wonderful Daughter

The years come and the years go
With admirations we want you to know
How very proud we are of you
It seems like yesterday that you first tied your shoe
Remember this day and smile
You have accomplished the golden mile
Graduation is a milestone in your life
You did it all on your own and took it in stride
We pray that God guides you on a journey full of success
And walks with you toward a future of joy and happiness

STRANGE BUT TRUE

Thai Motorists Get Massage

Thailand's Health Ministry announced plans to provide free massage services at more than 20 gas stations on major inter-city highways and around the capital city of Bangkok. The initiative was meant to relieve motorists' stress and decrease the number of highway deaths.

Death Not An Option

Mayor Gil Bernardi, of the French Mediterranean town, Le Lavandou, banned local residents from dying after a court order rebuffed his plans to develop a new seaside cemetery. Bernardi found the edict to be "remarkably well followed," as he awaited a decision on his appeal.

Trans-Atlantic Jet Setter

Spanish Count Alvaro de Marichalar set a world record by completing a 5,200-mile, four-month journey across the Atlantic on a jet ski. Marichalar trained for a year before setting out from Rome for Miami on a nine-foot watercraft with a support ship and crew of six bringing up the rear.

Nation Loses Time

It is a common complaint that there is not enough time in a day; however, for the people of Venezuela time is actually slipping away. Clocks in that country are ticking too slowly because a nationwide power shortage is weakening the electric current. Each day, electric clocks lose 150 seconds.

Former President Jimmy Carter was awarded the 2002 Nobel Peace Prize for his efforts to further human rights and democracy, find peaceful solutions to world conflicts and encourage economic and social growth. After serving as president from 1977 to 1981, Carter founded the Carter Center, a not-for-profit organization dedicated to improving the human condition. ▼

The Miss World competition was moved from Nigeria's capital, Abuja, to London after violent protests broke out in Nigeria. The protests began after a Nigerian newspaper printed an article that questioned why Mohammed would not have approved of the Miss World competition and said he probably would have married one of the contestants. ►

Nearly 200 people died after a bomb was detonated in a popular tourist area in Bali. Terrorist network al Qaeda claimed responsibility on its website for the bombing. The act of terrorism severely hurt the Indonesian island's economy as tourists traveled to alternate destinations. ►

Two Guatemalan twins who had been joined together at the tops of their heads returned home five months after doctors separated them in a 22-hour operation. Healing the Children, a nonprofit organization, arranged for the girls and their parents to come to Los Angeles for the surgery, and the doctors donated their services. ▼

Jury trials returned to most Russian courtrooms for the first time in 85 years as a result of legislation passed through parliament by supporters of President Vladimir Putin. The law amends the criminal code with 3,500 changes that emulate the Western model of a fair trial.

Nearly 1,000 people died when a Senegalese ferry traveling off the coast of Gambia capsized and sank. Investigators said overloading was the key cause of the disaster, which occurred when passengers moved to one side of the ship to take cover during a storm.

Tensions were high after North Korea began to use one of the nuclear reactors it had agreed to shut down in 1994. North Korea claimed it had to restart its nuclear program to provide power because the United States had stopped sending the country shipments of fuel oil. The U.S. said it only stopped shipping oil after North Korea started to work on its nuclear weapons program. ▲

Hu Jintao, who has plans to help China's poor, took over as China's Communist party chief from Jiang Zemin in the Communists' first orderly succession since 1949. China also allowed the United Nations unconditional access to investigate its treatment of human rights, a move the United States said meant China was sincere about improving its human rights record. ▲

NO WAR ON IRAQ

Photo by Scott Nelson/Getty Images

Concerned that Iraq could assemble nuclear weapons, the United Nations required Iraq to disclose and disarm its weapons of mass destruction. While the United Nations conducted weapon inspections in Iraq, the United States prepared to go to war.

Questions remained about how long the weapon inspections

would take and thousands of people protested the war in more than 220 cities around the country on a weekend in January.

Meanwhile, the U.S. sent almost as many aircraft carriers and troops into the Persian Gulf as were there during the 1991 Persian Gulf War.

SPECIAL ON IRAQ

THE WAR ON TERRORISM

John Allen Muhammed and John Lee Malvo were accused of carrying out a string of sniper shootings that killed 10 people and wounded three others during a three-week period in the Washington, D.C., area. Victims, who were selected at random during the killing spree, ranged in age from 13 to 72. ▶

Nine Pennsylvania miners emerged one-by-one from a small, dark flooded chamber 240 feet below the surface after being trapped for more than three days. The ordeal began when water from an adjacent abandoned mine burst through a breached wall and filled the shaft in which they were working. Rescuers worked around the clock to free the men, who surfaced relatively unscathed. ▲

Memorial services were held around the country on the anniversary of Sept. 11, which President George W. Bush proclaimed Patriot Day. One year after the attacks on the World Trade Center and the Pentagon, the sluggish American economy still felt the effects. News about Afghanistan diminished, but al Qaeda and Osama bin Laden were still in the news. Debate continued about what should be built at the Ground Zero

site, and colleges were asked to turn over personal information about their foreign students and teachers to the FBI.

The country continued to pursue Osama bin Laden and other threats to national security in its War on Terror. Sometimes the war was subtle, and sometimes it was very noticeable. The Immigration and Naturalization Service began to fingerprint and photograph men who entered the

United States from 18 Middle Eastern countries. Bush signed a Homeland Security bill into law that created a new federal department devoted to preventing future attacks and allowed commercial airline pilots to carry guns.

The director of the FBI announced that his organization had thwarted almost 100 terrorist attacks since Sept. 11, 2001. He said some of the attacks were intended for U.S. targets.

The Roman Catholic Church was immersed in a scandal involving forbidden sex and molestation, as well as widespread cover-ups at the hands of some of its most prominent officials. At the center of it all was the Boston Archdiocese, where Cardinal Bernard Law resigned under pressure from allegations that he withheld knowledge of priests sexually abusing children. ▶

Not What We Had In Mind

Jersey City, N.J., officials held an anniversary tribute to Sept. 11 victims, where they planned to release a flock of doves at a downtown ceremony. Since all dove suppliers were sold out, they decided to use pigeons instead. The solemn ceremony was interrupted when the birds, having been caged most of their lives, careened into the crowd. ▼

There's A Monkey In My Pants!

California environmentalist Robert Cusack was arrested on smuggling charges when customs officials found a pair of pygmy monkeys in his pants. Further inspection revealed that Cusack, who was returning from a trip to Thailand, also had four exotic birds and 50 rare orchids in his suitcase. ▼

Highly publicized stories of missing children prompted talk of a nationwide Amber Alert system. The system, already in place in several states, is used to broadcast descriptions of missing children and their abductors over radio, TV and electronic highway signs. Some parents considered buying devices like the global positioning watch for their children as a precaution. ▼

The economy, still trying to re-build itself after Sept. 11, continued to struggle. Millions of Americans were out of jobs as the national unemployment rate hit an eight-year high. Holiday shoppers spent less than economists expected, and a record number of people lost their homes when they could not make their mortgage payments. ▼

Accounting scandals continued this year as WorldCom replaced Enron as the nation's largest bankruptcy. Thousands of workers lost their jobs and retirement savings because of the scandals, and the SEC began requiring that CEOs verify financial statements for their publicly held companies to boost investor confidence. Officers whose statements were found incorrect could face criminal charges and possible jail time. ▼

A man who had been adrift at sea for four months was rescued by the crew of a U.S. Navy ship after he was spotted near Costa Rica by a military aircraft. Richard Van Pham, the 62-year-old man, said he survived by drinking rainwater he collected in a bucket and eating fish and seagulls. He had only intended to take a short sailing trip, but the wind broke his mast, and his radio quit working. ▲

The :) turned 20 this year. IBM researcher Scott Fahlman first typed the smiley face in an online message in 1982.

Wake up, Sleepyhead! A 16-year-old German student invented a bed with an electric motor that gradually raises the bed's mattress for five minutes after an alarm goes off. After five minutes, the sleepyhead has to get out of bed or be forced onto the floor.

Consumers began to wonder whether hybrid cars would become mainstream after General Motors Corp., the world's largest auto maker, announced it would offer hybrid cars, pickups and sport utility vehicles. Hybrids use a mixture of electricity and gas, making them more fuel-efficient.

FUN FACTS

Researchers found out that duct tape removes warts just as well as freezing them with liquid nitrogen. Just apply, wait six days, remove the tape, soak the area in water, scrape the area with a pumice stone, and apply again. Experts say the tape irritates the warts and triggers the immune system to attack them, and they say this approach does not hurt.

This year, Mississippi became the first state ever to have an online computer in each public school classroom.

Reporters writing about the new James Bond movie *Die Another Day* received self-destructing DVDs to preview the movie's scenes. A letter from the movie's fictional character Q accompanied the discs, warning that the content would only be available for 36 hours. After that, Q wrote, the disc makes a nice coaster.

Companies continued to cram gadgets into cell phones, eliminating the need for people to carry PDAs or computers along with their phones. The new generation of phones can take digital pictures, access the internet, send and receive email and instant messages, and download video games and ring tones.

New studies revealed that ribonucleic acid (RNA) is capable of taking charge of the genetic process, commanding gene activity, or even deleting entire sections of DNA. Researchers hope that RNA will play a vital role in the war against cancer and other diseases.

A worm called Sapphire was unleashed on tens of thousands of internet servers, resulting in the shutdown of computer systems, a blackout of automatic teller machines and a bog down of web traffic. The author of the worm, if caught and convicted, could face harsh punishment under new U.S. anti-terror legislation.

The Kroger Company, the country's largest grocery chain, tested finger imaging at three of its Texas stores as a new way for customers to pay for their groceries. When customers signed up for the program, their credit or debit card information was linked to their fingerprint, so they no longer needed to take their wallets to the store. The Penn Cambria district in Pennsylvania allows its students to pay for their lunches in the same manner. It is one of about 35 districts trying the biometric program. Other schools across the nation used the system in their libraries.

A fossil unearthed in Africa was dated at between 6 and 7 million years old, pushing the date of the earliest known human ancestor back more than 3 million years. The nearly complete skull, nicknamed Tournai, had some apelike features, but the shape of its teeth and lower face suggested human ancestry.

Environmentally friendly cars powered by hydrogen made their debut in Los Angeles when the city's mayor signed a lease for city employees to try five of the cars. Automakers said this was an important first step, but the cars probably will not be sold to the general public for another 10 years. ▶

So That's How It Works

The dynamics of the stadium wave were calculated and published in a scientific journal by a University of Hungary professor. Tamas Vicsek used mathematical models written to study the spread of forest fires and applied them to the wave. His analysis shows it only takes a few dozen fans to trigger a wave. It will move clockwise at a rate of 20 seats per second and is usually about 15 seats wide.

Coloring The Cosmos

Astronomers Karl Glazebrook and Ivan Baldry finally put that nagging "What color is the universe?" question answered. The color is Cosmic Latte. The color-naming contest evolved from the scientists' speculation of what color the universe would be if all its light were taken together. Their initial findings said light green before they finally settled on beige.

STRANGE BUT TRUE

Just What The Vet Prescribed

Kyoto University researchers discovered some primates, specifically certain varieties of lemurs, eat plants containing poisonous tannins prior to giving birth. Tannins in small doses naturally increase milk production and veterinarians use them to prevent failed pregnancies. Scientists say this makes the lemur the first known animal to self-medicate when pregnant.

No Prey? Then You May Pass

Computer programmer Boris Tsikhanovsky developed software to stop his cat, Squiggle, from dragging prey into the house. Squiggle, whose special collar allows her to exit and enter through a magnetized door, often hides dead mice and birds in the furniture. So, he developed imaging software linked to a camera by the door that will not allow Squiggle to enter if her profile shows something in her mouth.

The Institute of Medicine changed its recommendations for Americans' diets and exercise regimes. Under the new guidelines, everyone should participate in at least one hour of physical activity each day and should eat a recommended percentage of carbohydrates, fats and proteins. McDonald's cut the amount of bad fat in its fries, Chicken McNuggets and other products after a New York man sued McDonald's and three other major fast-food chains for allegedly making him fat.

A few weeks later, a lawyer sued McDonald's on behalf of obese children. The suits were later thrown out by a federal judge who said the law is not in place to protect people from their own excesses. The cases argued that the fast-food chains never gave a clear warning about the foods' danger.

People desperate for money turned to the internet to cyberhelp. One woman was able to pay off her \$20,000 credit card debt in just five months with the contributions she received from people who read her website and sent money.

TRENDS

Several stars crossed over from one entertainment genre to another, the most common of which involved musicians making movies. Actress/pop star Jennifer Lopez was one example. She starred in two movies this year, released a top-selling CD, opened a restaurant and even launched a perfume. Other stars crossing over included Eminem and Kid Rock making their film debuts.

Hewlett-Packard introduced a personal computer that works like a TV. The computer comes with a remote control and a TV tuner, and users can play and record TV shows and digital music.
